No A5 PR-7-e265/47 of 13/7/48

Requests sanction to the purchase a new Remington Typewriter of policy size at a cost to be fixed by the controller of civil supplies

1) The chairman has already written to the controller of civil supplies for the supply of a Typewriter (fg 03) It is seen from the letter of the chairman addressed to the controller, only one old machine is being used in the office of the Trust Board for reasons stated by the chairman, the proposal may perhaps be sanctioned

a Portable Type writer at a

cost of Rs 1000/- (approximately) may perhaps be sanctioned

7) Even now the proposal is not clear. It is very unusual to have both the machines of the policy size. A typewriter of this size is not only costlier, but is not convenient for quick work and that is the reason to buy steno typists and even office typists, who have to do quick & large volume of work quickly day by day don't use it. But perhaps as the President is insistent by having the key machine, it is not necessary to press it further.

Hm 31/8

By 1948 8/st it is understood that, out of 80 machines in use in the Secty, only one policy size machine is in use. The exact cost of this typewriting machine is not stated. The Chairman wants a sum of Rs 1000/- for it but a better & more useful machine can be had at a cost of Rs 600 or Rs 650. Thus if another kind of machine (Underwood, Remington) is purchased, there is likely to be a saving of Rs. 300 or thereabouts. In view of the above facts, the proposal of the Chairman to
